TRANS|COVER[™] SOLUTIONS FOR WHITE GOODS

Full product coverage

AIR|SHIELD™ Provides optimum protection

Clam Shell Design is easy to fit and remove

Our White Goods range has been developed as a reusable, high volume after-sale solution for companies supporting warrant / non-warranty repairs, refurbishment, removals, lease & rental movements.

Our Fridge Freezer cover is an innovative hybrid solution combining AIR|SHIELD™; a unique, high impact resistant solution that accompanies a light weight, durable and sustainable cover, designed to deliver White Goods to the most challenging customer locations.

Cosmetic damage and DOA is virtually eliminated with this easy to use, yet full jacket protection system. Its versatility means it's just as at home in final mile deliveries as it is used for long term storage. Unbeatable transaction costs are complimented with a 3-year manufacturer's warranty, typically representing 120-150 cycles. The cover accommodates most modern fridge freezer sizes in one SKU, with built in future-proofing for additional models and upgrades.

Why delay, call now for free and impartial advice
