

AIR | MAT[®] THE PERFECT MULTI-PURPOSE SOLUTION

Gaia Packaging are proud to announce the recent launch of its AIR|MAT™ range; inflatable, multi-purpose protective packaging solutions, that once again deliver industry 1st innovative design and eco-friendly recyclable materials with a significantly lower carbon footprint than traditional packaging materials.

AIR|MAT™ combines the unique protective packaging qualities of its AIR|SHIELD™ range with the versatility of standard Bubble Wrap.

High volume packing line requirements become a breeze when combined with the fully compatible EVOLVE | 150™ auto-inflation device, capable of 22-25 meter p/minute.

At price points up to 30% lower than traditional alternatives e.g. polystyrene, void fill, bubble wrap; and protective qualities that ensure your products arrive in a condition that enhances your brand image, reduces the risk and cost in sales due to poor customer feedback, how can you afford not to consider this exciting opportunity!

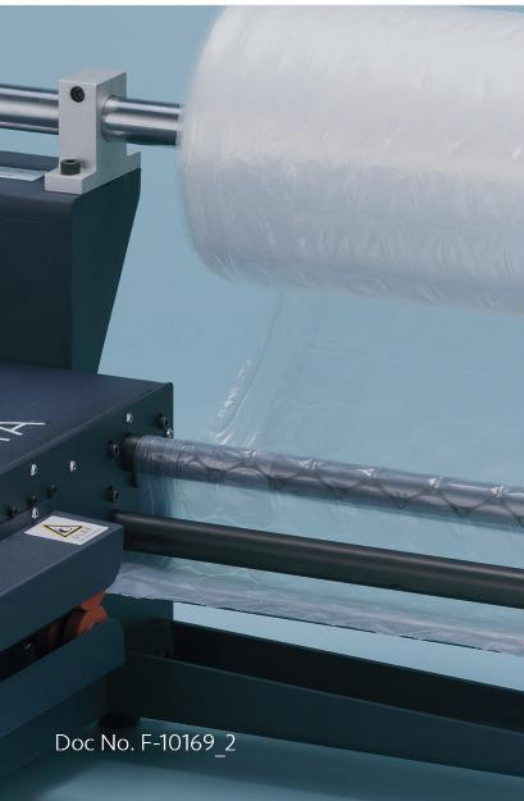

Call now, for free advice and technical support on your current or future packaging / CSR requirements.

AIR | MAT®

EVOLVE | 150
NEW INFLATION DEVICE

- High production efficiencies when combined with our inflation device - EVOLVE | 150™
- **2% Film / 98% Air** means lower cubic size and weight
 - Large savings in storage / inventory management
- Adaptable to current packaging solutions.
 - Avoid packaging redesign

Material Construction

- Unlike HDPE/LDPE (bubble wrap) does not leave marks or etching on wood or shiny surfaces from leaching
- Recyclable materials to meet changing EU/UK Waste Directives
- Lower packaging transaction costs

Innovative patented valve system

- Halves the inflation time - less resource and greater productivity
- Reduced film requirements - lowers costs!
- Chambers can be re-inflated
